REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-10 is the inclusion of a method of transferring with an amount of transfer bias set such that potential differences between surface potentials of an image section and a non-image section of the image holder and a surface potential of the image-receiving unit generate a discharging at the image section and do not generate a discharging at the non-image section. This is found in all of claims 1-10, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Kosugi et al., Sasamoto et al., Tsukamoto (169), Nakano et al., Tsukamoto et al. (282), Kurotori et al., Tsukamoto et al. (930), and Takeuchi et al. were disclosed as prior art in parent application 10/136,279, but not listed in any PTO-1449 of the instant invention.
